Education

California Polytechnic State University June 2015
Bachelor of Arts in Liberal Arts and Engineering Studies
Concentrations in Computer Science and Media Studies
Minor in Media Arts and Technologies

Experience

WEB DEVELOPER AND DESIGNER AT IFIXIT, NOV 2015 - PRESENT
Designing and building iFixit.com. Creating beautiful and modular interface components, and working on large scale projects like iFixit's online store and product page redesigns.

WINNER OF BEST DESIGN AT CAL POLY HACKATHON, FEB 2015
Prototyped a mobile web app at Cal Poly's 2015 Hackathon called Pizza Club that alerts users of free pizza on campus. Won Best Design.

WEB DEVELOPER AT KENNEDY LIBRARY, JUNE 2014 - JUNE 2015
Worked with the library's student design team on multiple front-end web design and back-end system architecture projects. Completely rebuilt the library's blog Out Loud (lib.calpoly.edu/outloud) to follow the design themes of the current library's website. Helped organize and document usability tests for the library's mobile website.

GENERAL MANAGER OF KCPR, CAL POLY RADIO, JUNE 2013 - JUNE 2014
Volunteered as business director, then promoted to general manager of Cal Poly's student-run radio station. Oversight of 60+ student DJs. Held active communication between KCPR and Journalism department board members. Changed our pledge drive week from being a phone in donation to a Kickstarter campaign, raising over 3 times our initial goal.

MANAGER AT CAL POLY VIDEO EDITING LAB, JUNE 2013 - APRIL 2014
Regularly organized Cal Poly's school's video editing lab. Managed student checkouts, taught students how to use video editing software, and hosted open and in-class tutorials.
